### PROFILE :

---

A talented production assistant/script supervisor, who has been freelance for the last five years and who has worked across a variety of shows. Prior to that I spent fifteen years within ITN's television newsgathering organisation, working across all its main news and current affairs programmes.

An outgoing and sociable personality, with a persuasive manner: I easily establish positive working relationships at all levels and with people from many walks of life. At the same time, I set high professional standards, both of myself and the people I work with and possess an ability to work effectively under continuous pressure and to strict deadlines.
